### Folding instructions...

Cut along the outside lines of your 'frank fortunes' to make a perfect square, then...

1. Start with the back of the sheet facing up. Fold the four corners in so they meet in the centre.
2. Turn the square over and repeat, folding the corners in so they meet in the centre of the square.
3. Crease the square horizontally and vertically.
4. Insert your fingers under the corners inside the flaps marked with the frank logo, move the points together, and pop into shape.

### How to play!

1. Read the question on the outside of the 'frank fortunes' to your friend.
  2. Ask your friend to pick an image from the outside.
  3. Spell out the word of the chosen image while moving the tips of your frank fortunes vertically then horizontally with your fingers eg: they chose 'sun' - you move the tips of the frank fortunes 3 times.
  4. Now ask your friend to choose another image/word from the 4 inside triangles that you landed on.
- Repeat step 3.
5. Finally, ask your friend to pick one final image/word then lift up the inside flap to reveal their frank fortune!
